

Se-Kure Stylus Mechanical Cable

The **Se-Kure Stylus Mechanical Cable** is the ideal solution for safeguarding stylus devices in retail and commercial environments. Designed to prevent unauthorized removal, this innovative cable assembly securely attaches the stylus to a durable tether, ensuring it stays in place and is fully functional. The cable offers multiple connector options, allowing it to be securely attached, combined with a retractor, or customized to fit your specific setup.

Stylus Cable: The latest addition to the Design-A-Cable™ system.
